THE VIRGINIA REGISTER INFORMATION PAGE

THE VIRGINIA REGISTER OF REGULATIONS is an official state publication issued every other week throughout the year. Indexes are published quarterly, and are cumulative for the year. The *Virginia Register* has several functions. The new and amended sections of regulations, both as proposed and as finally adopted, are required by law to be published in the *Virginia Register*. In addition, the *Virginia Register* is a source of other information about state government, including petitions for rulemaking, emergency regulations, executive orders issued by the Governor, and notices of public hearings on regulations.

ADOPTION, AMENDMENT, AND REPEAL OF REGULATIONS

Unless exempted by law, an agency wishing to adopt, amend, or repeal regulations must follow the procedures in the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia). Typically, this includes first publishing in the *Virginia Register* a notice of intended regulatory action; a basis, purpose, substance and issues statement; an economic impact analysis prepared by the Department of Planning and Budget; the agency's response to the economic impact analysis; a summary; a notice giving the public an opportunity to comment on the proposal; and the text of the proposed regulation.

Following publication of the proposed regulation in the *Virginia Register*, the promulgating agency receives public comments for a minimum of 60 days. The Governor reviews the proposed regulation to determine if it is necessary to protect the public **health**, safety, and welfare, and if it is clearly written and easily understandable. If the Governor chooses to comment on the proposed regulation, his comments must be transmitted to the agency and the Registrar of Regulations no later than 15 days following the completion of the 60-day public comment period. The Governor's comments, if any, will be published in the *Virginia Register*. Not less than 15 days following the completion of the 60-day public comment period, the agency may adopt the proposed regulation.

The Joint Commission on Administrative Rules or the appropriate standing committee of each house of the General Assembly may meet during the promulgation or final adoption process and file an objection with the Registrar and the promulgating agency. The objection will be published in the *Virginia Register*. Within 21 days after receipt by the agency of a legislative objection, the agency shall file a response with the Registrar, the objecting legislative body, and the Governor.

When final action is taken, the agency again publishes the text of the regulation as adopted, highlighting all changes made to the proposed regulation and explaining any substantial changes made since publication of the proposal. A 30-day final adoption period begins upon final publication in the *Virginia Register*.

The Governor may review the final regulation during this time and, if he objects, forward his objection to the Registrar and the agency. In addition to or in lieu of filing a formal objection, the Governor may suspend the effective date of a portion or all of a regulation until the end of the next regular General Assembly session by issuing a directive signed by a majority of the members of the appropriate legislative body and the Governor. The Governor's objection or suspension of the regulation, or both, will be published in the *Virginia Register*.

If the Governor finds that the final regulation contains changes made after publication of the proposed regulation that have substantial impact, he may require the agency to provide an additional 30-day public comment period on the changes. Notice of the additional public comment period required by the Governor will be published in the *Virginia Register*. Pursuant to § 2.2-4007.06 of the Code of Virginia, any person may request that the agency solicit additional public comment on certain changes made after publication of the proposed regulation. The agency shall suspend the regulatory process for 30 days upon such request from 25 or more individuals, unless the agency determines that the changes have minor or inconsequential impact.

A regulation becomes effective at the conclusion of the 30-day final adoption period, or at any other later date specified by the promulgating agency, unless (i) a legislative objection has been filed, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 21-day objection period; (ii) the Governor exercises his authority to require the agency to provide for additional public comment, in

which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the period for which the Governor has provided for additional public comment; (iii) the Governor and the General Assembly exercise their authority to suspend the effective date of a regulation until the end of the next regular legislative session; or (iv) the agency suspends the regulatory process, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 30-day public comment period and no earlier than 15 days from publication of the readopted action.

A regulatory action may be withdrawn by the promulgating agency at any time before the regulation becomes final.

FAST-TRACK RULEMAKING PROCESS

Section 2.2-4012.1 of the Code of Virginia provides an alternative to the standard process set forth in the Administrative Process Act for regulations deemed by the Governor to be noncontroversial. To use this process, the Governor's concurrence is required and advance notice must be provided to certain legislative committees. Fast-track regulations become effective on the date noted in the regulatory action if fewer than 10 persons object to using the process in accordance with § 2.2-4012.1.

EMERGENCY REGULATIONS

Pursuant to § 2.2-4011 of the Code of Virginia, an agency may adopt emergency regulations if necessitated by an emergency situation or when Virginia statutory law or the appropriation act or federal law or federal regulation requires that a regulation be effective in 280 days or fewer from its enactment. In either situation, approval of the Governor is required. The emergency regulation is effective upon its filing with the Registrar of Regulations, unless a later date is specified per § 2.2-4012 of the Code of Virginia. Emergency regulations are limited to no more than 18 months in duration; however, may be extended for six months under the circumstances noted in § 2.2-4011 D. Emergency regulations are published as soon as possible in the *Virginia Register* and are on the Register of Regulations website at register.dls.virginia.gov.

During the time the emergency regulation is in effect, the agency may proceed with the adoption of permanent regulations in accordance with the Administrative Process Act. If the agency chooses not to adopt the regulations, the emergency status ends when the prescribed time limit expires.

STATEMENT

The foregoing constitutes a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2 of the Code of Virginia be examined carefully.

TITLE 9. ENVIRONMENT

VIRGINIA WASTE MANAGEMENT BOARD

Report of Findings

Pursuant to §§ 2.2-4007.1 and 2.2-4017 of the Code of Virginia, the Virginia Waste Management Board conducted a periodic review and a small business impact review of **9VAC20-110, Regulations Governing the Transportation of Hazardous Materials**, and determined that this regulation should be retained as is. The board is publishing its report of findings dated February 21, 2023, to support this decision.

This regulation is necessary for the protection of public **health**, safety, and welfare and is clearly written and easily understandable. The regulation incorporates federal transportation regulations into state regulations. The regulation is needed to ensure that hazardous materials are transported safely. The regulation is being retained as is. No comments were received during the public comment period. This regulation is periodically updated to maintain consistency with the Code of Federal Regulations (CFR). The regulation incorporates applicable CFR sections. This minimizes the complexity of the regulation since Virginia's regulation incorporate sections of the CFR by reference; thereby making the federal and state requirements identical. Section 10.1-1454 of the Code of Virginia states: "Any person transporting hazardous materials in accordance with regulations promulgated under the laws of the United States, shall be deemed to have complied with the provisions of this article, except when such transportation is excluded from regulation under the laws or regulations of the United States." The most recent amendment to incorporate applicable CFR sections became effective January 18, 2023. The regulation has been written to maintain consistency with the federal regulatory requirements pertaining to the transportation of hazardous materials due to the requirements of § 10.1-1454 the Code of Virginia.

Small businesses are required to comply with federal requirements concerning the transportation of hazardous materials; therefore, the adoption of less stringent requirements for small businesses in this regulation to minimize the economic impact of the regulation would not be consistent with federal and state law. However, given that this regulation incorporates applicable CFR sections, the regulation is no more restrictive to small businesses than federal regulations and the complexity of the regulation is reduced as the federal and state requirements are identical.

COMMONWEALTH OF VIRGINIA, ex rel.

STATE CORPORATION COMMISSION

CASE NO. PUR-2023-00006

Ex Parte: In the matter of adopting new rules of the State Corporation Commission governing utility rate applications by investor-owned gas utilities

ORDER FOR NOTICE AND COMMENT

On December 16, 2008, the State Corporation Commission ("Commission") adopted revisions to its Rules Governing Utility Rate Application and Annual Informational Filings, 20 VAC 5-201-10 et seq., in response to the Virginia General Assembly's amendment to Chapter 23 of Title 56 of the Code of Virginia ("Code"), which significantly modified how investor-owned electric utilities are regulated in the Commonwealth of Virginia.¹ On November 23, 2020, following subsequent amendments to Chapter 23 of Title 56 of the Code, the Commission adopted the new Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities, 20 VAC 5-204-10 et seq.² In connection therewith, the Commission also adopted limited revisions to 20 VAC 5-201-10 et seq., to limit their applicability to investor-owned gas and water utilities ("Existing Rate Case Rules").³

Since the Existing Rate Case Rules were originally adopted, subsequent legislative amendments have, among other things, expanded the number and types of rate adjustment clauses that may be sought by gas utilities.⁴ The Code sections allowing such filings have various statutory deadlines for the Commission to issue a final order, ranging from 90 days to 180 days after filing. These time periods limit the time NOW THE COMMISSION, upon consideration of the foregoing, is of the opinion and finds that a proceeding should be established to promulgate new rules governing utility rate applications and annual informational filings of investor-owned gas utilities

("Investor-owned Gas Utility Rate Case Rules"). In connection therewith, the Commission will also consider limited revisions to the Existing Rate Case Rules to remove their applicability to investor-owned gas utilities (together with Investor-owned Gas Utility Rate Case Rules, "Proposed Rules"). The Commission does not intend to consider any additional changes to the Existing Rate Case Rules beyond removing their applicability to investor-owned gas utilities in this proceeding. To initiate this proceeding, the Commission's Staff ("Staff") has prepared Proposed Rules, which are appended to this Order as Attachment A. We will direct that notice of the Proposed Rules be given to the public and that interested persons be provided an opportunity to file written comments on, propose modifications or supplements to, or request a hearing on the Proposed Rules. We further find that a copy of the Proposed Rules should be sent to the Registrar of Regulations for publication in the Virginia Register of Regulations.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUR-2023-00006.

(2) All comments, pleadings or other documents filed in this matter should be submitted electronically to the extent authorized by Rule 5VAC5-20-150, Copies and Format, of the Commission's Rules of Practice and Procedure ("Rules of Practice").⁵ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5VAC5-20-170, Confidential information, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5VAC5-20-140, Filing and service, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) The Staff shall forward a copy of this Order for Notice and Comment ("Order"), including a copy of the Proposed Rules, to the Registrar of Regulations for publication in the Virginia Register of Regulations.

AT RICHMOND, MARCH 9, 2023

COMMONWEALTH OF VIRGINIA, ex rel.

STATE CORPORATION COMMISSION

CASE NO. PUR-2023-00006

Ex Parte: In the matter of adopting new rules of the State Corporation Commission governing utility rate applications by investor-owned gas utilities

ORDER FOR NOTICE AND COMMENT

On December 16, 2008, the State Corporation Commission ("Commission") adopted revisions to its Rules Governing Utility Rate Application and Annual Informational Filings, 20 VAC 5-201-10 et seq., in response to the Virginia General Assembly's amendment to Chapter 23 of Title 56 of the Code of Virginia ("Code"), which significantly modified how investor-owned electric utilities are regulated in the Commonwealth of Virginia.¹ On November 23, 2020, following subsequent amendments to Chapter 23 of Title 56 of the Code, the Commission adopted the new Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities, 20 VAC 5-204-10 et seq.² In connection therewith, the Commission also adopted limited revisions to 20 VAC 5-201-10 et seq., to limit their applicability to investor-owned gas and water utilities ("Existing Rate Case Rules").³

Since the Existing Rate Case Rules were originally adopted, subsequent legislative amendments have, among other things, expanded the number and types of rate adjustment clauses that may be sought by gas utilities.⁴ The Code sections allowing such filings have various statutory deadlines for the Commission to issue a final order, ranging from 90 days to 180 days after filing. These time periods limit the time available for discovery and analysis of requested rate changes.

NOW THE COMMISSION, upon consideration of the foregoing, is of the opinion and finds that a proceeding should be established to promulgate new rules governing utility rate applications and annual informational filings of investor-owned gas utilities ("Investor-owned Gas Utility Rate Case Rules"). In connection therewith, the Commission will also consider limited revisions to the Existing Rate Case Rules to remove their applicability to investor-owned gas utilities (together with Investor-owned Gas Utility Rate Case Rules, "Proposed Rules"). The Commission does not intend to consider any additional changes to the Existing Rate Case Rules beyond removing their applicability to investor-owned gas utilities in this proceeding. To initiate this proceeding, the Commission's Staff ("Staff") has prepared Proposed Rules, which are appended to this Order as Attachment A. We will direct that notice of the Proposed Rules be given to the public and that interested persons be provided an opportunity to file written comments on, propose modifications or supplements to, or request a hearing on the Proposed Rules. We further find that a copy of the Proposed Rules should be sent to the Registrar of Regulations for publication in the Virginia Register of Regulations.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUR-2023-00006.

(2) All comments, pleadings or other documents filed in this matter should be submitted electronically to the extent authorized by Rule 5VAC5-20-150, Copies and Format, of the Commission's Rules of Practice and Procedure ("Rules of Practice").⁵ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5VAC5-20-170, Confidential information, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5VAC5-20-140, Filing and service, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) The Staff shall forward a copy of this Order for Notice and Comment ("Order"), including a copy of the Proposed Rules, to the Registrar of Regulations for publication in the Virginia Register of Regulations.

(5) An electronic copy of the Proposed Rules may be obtained by submitting a request to Andrea B. Macgill, Esq., in the Commission's Division of Utility Accounting and Finance at the following email address: andrea.macgill@scc.virginia.gov. An electronic copy of the Proposed Rules can be found on the Commission's website: <http://scc.virginia.gov/pages/Rulemaking>. Interested persons may also download unofficial copies of the Order and the Proposed Rules from the Commission's website: <http://scc.virginia.gov/pages/Case-Information>.

(6) The Commission's Division of Utility Accounting and Finance shall provide copies of this Order by electronic transmission, or when electronic transmission is not possible, by mail, to: individuals, organizations, and companies who have been identified by the Staff as potentially being interested in this proceeding.

(7) On or before May 26, 2023, any interested person may file comments on the Proposed Rules by following the instructions found on the Commission's website: <http://scc.virginia.gov/casecomments/Submit-Public-Comments>. Those unable, as a practical matter, to submit comments electronically, may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Such comments may also include proposals and hearing requests. All comments shall refer to Case No. PUR-2023-00006. Any request for hearing shall state with specificity why the issues raised in the request for hearing cannot be adequately addressed in written comments. If a sufficient request for hearing is not received, the Commission may consider the matter and enter an order based upon the papers filed herein.

(8) On or before August 7, 2023, the Staff shall file with the Clerk of the Commission a report on or a response to any comments, proposals, or requests for hearing submitted to the Commission on the Proposed Rules.

(9) All documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by this order, all filings shall comply fully with the requirements of 5VAC5-20-150, Copies and format, of the Rules of Practice.

(10) This matter is continued.

Commissioner Patricia L. West participated in this matter.

Schedule 51 – Biogas supply investment plans

Instructions: For any application made pursuant to § 56-625 of the Code of Virginia, the applicant shall file the following:

a. A detailed description and analysis of the proposed eligible biogas supply infrastructure projects and the timeline for the investment and completion of the proposed eligible biogas supply infrastructure projects.

b. A detailed description and analysis of the anticipated benefits of the proposed eligible biogas supply infrastructure projects, including how such projects will result in (i) a reduction in methane or carbon dioxide equivalent emissions from the biogas facility; (ii) an additional source of supply for the applicant; (iii) a beneficial use for the biogas; or (iv) any combination thereof. Provide calculations of the costs and benefits of each project.

c. An estimated schedule for recovery of the related eligible biogas supply infrastructure costs through the gas cost component of the applicant's rate structure or other mechanism, including proposed depreciation rates for investments in nondistribution asset classes.

d. A detailed description and analysis of how any revenue gains from the use of the pipelines by third parties will be used to offset eligible biogas supply infrastructure costs.

e. Provide a schedule supporting all the income tax amounts included in the application, including tax credits, deferred taxes, and tax expense. For any ADIT balances included in the application, the applicant shall provide such information in a manner that separately identifies the types of book/tax differences included in these supporting ADIT balances and include a separate written narrative describing the nature of each identified book/tax difference.

f. The applicant's weather-normalized Virginia-jurisdictional firm sales demand for the calendar year preceding the application.

g. Quantification of each project's annual volume of biogas and the resulting percentage of the applicant's weather-

normalized Virginia-jurisdictional firm sales demand for the calendar year preceding the application.

h. Quantification of the base gas purchases the applicant expects will be replaced with the biogas acquired from the eligible biogas supply infrastructure projects during the first year of the plan and for any additional years of the plan thereafter for which the applicant has estimates.

i. If the proposed biogas supply investment plan includes the option for the applicant to receive the biogas or sell the biogas at market prices, provide a detailed description and analysis of how any revenue gains from the sale of the biogas will be used to reduce the cost of gas to the applicant's customers.

j. A Virginia-jurisdictional lifetime revenue requirement of the proposed plan by year, including all supporting calculations and assumptions. The applicant shall provide such information by program if applicable for the specific biogas supply investment plan filing.

k. Identification (in the application or supporting testimony) of the estimated impact on a typical affected customer's monthly bill from the proposed revenue requirement. The applicant should provide a billing analysis based on the average annualized bill for a typical customer for each class that details (i) the proposed customer bill impact and (ii) the current bill impact. The applicant should provide both the dollar amount increase as well as percentage increase. This should be provided in an electronic file with the underlying calculations and supporting information.

l. A schedule of all projected and actual costs by type of cost and year, and by month to the extent available. The applicant shall provide such information by program if applicable, for the specific biogas supply investment plan filing.

m. Provide a transaction-level summary to facilitate the audit of actual costs and the review of projected costs, electronically to the Division of Utility Accounting and Finance in an electronic spreadsheet with all underlying formulas and assumptions. If the application includes a true-up, provide such information for costs incurred during the true-up period. Provide these costs grouped separately by, but not limited to, the following categories: (i) program; (ii) project; (iii) work order; or (iv) cost type, if available.

n. If the applicant proposes to recover eligible biogas supply infrastructure costs through a recovery mechanism other than the gas cost component of the applicant's rate structure, provide detailed information relative to the applicant's methodology for allocating the revenue requirement among rate classes and the design of class rates.

o. The applicant shall provide an illustrative journal entry example for each the following items: (i) costs; (ii) recoveries; (iii) deferrals; (iv) carrying charges; (v) current taxes; (vi) deferred taxes; and (vii) any other items included

Regulations

in the applicant's biogas supply investment plan filing. In addition, the company shall provide a separate accompanying description for each type of journal entry provided.

p. A detailed explanation of the applicant's proposed regulatory treatment of costs, recoveries, deferrals, carrying charges, current taxes, and deferred taxes. The applicant shall provide a separate explanation for each of the items included in the applicant's biogas supply investment plan filing and discuss any proposed regulatory treatments that differ from the applicant's per book method of accounting.

q. A detailed explanation of any recent or proposed changes in the per books accounting or regulatory treatment of costs, recoveries, deferrals, carrying charges, current taxes, and deferred taxes that have occurred since the applicant's previous biogas supply investment plan filing. The applicant shall provide a separate explanation for each of these items included in the applicant's biogas supply investment plan filing.

r. A clean and redline copy of all tariff pages that the applicant proposes to revise in this proceeding.

s. An itemized summary that demonstrates how the applicant has fulfilled each of the filing requirements in this section. This summary shall include references and page numbers to each supporting item referenced.

STATE BOARD OF **HEALTH**

Public Comment Opportunity for New Scoring Sheet for the Drinking Water State Revolving Fund

The Virginia Department of **Health** (VDH) Office of Drinking Water (ODW) is pleased to accept comments on the new application scorecards for both traditional construction applications and the Lead Elimination Assistance Program (LEAP) applications.

With the passage of the Bipartisan Infrastructure Law (BIL) and the renewed emphasis on infrastructure at drinking water systems, new score sheets are necessary. The Financial Construction Assistance Program (FCAP) last revised scoresheets in April 2019. The 2019 construction scoresheet did not address many of the infrastructure issues that BIL implements. The revised project scoresheet includes additional points for the replacement of lead jointed cast iron pipe, the replacement of asbestos cement pipe, and the installation of emergency electric power generators, among other changes.

The LEAP scorecard was updated to expand eligibility criteria for vulnerable populations by adding the poverty indicator and pre-K enrollment indicator from the [VDH Youth Well-Being Index](#). The LEAP scorecard expands eligibility criteria for young children who are most vulnerable to exposure from lead in drinking water; adding a "Readiness to Proceed" section to prioritize projects that are ready to move forward now; and adding bonus points for lead service line (LSL) replacement projects to separate them from the LSL inventory projects. Removal of LSLs reduces risks to public **health**.

Both the construction and LEAP scorecards are available at <https://www.vdh.virginia.gov/drinking-water/fcap/drinking-water-funding-program/> or by contacting the agency contact, Kelly Ward. Comments on the scorecards are due by April 17, 2023. All comments submitted should include the name,

Public Comment Opportunity – Draft Amendments for Hospital Emergency Departments (12VAC5-410) pursuant to Chapter 417 of the 2023 Acts of Assembly

Introduction: The first enactment clause of Chapter 417 of 2023 Acts of Assembly requires the State Board of **Health** to amend its hospital regulations to require hospitals with emergency departments "to establish a security plan...using standards established by the International Association for Healthcare Security and Safety or other industry standard" that is "based on the results of a security risk assessment of each emergency department location of the hospital." This security plan must "include the presence of at least one off-duty law-enforcement officer or trained security personnel who is present in the emergency department at all times as indicated to be necessary and appropriate by the security risk assessment." Chapter 417 further enumerates what identified risks hospitals must consider when developing security plans and training requirements for security personnel and authorizes the State **Health** Commissioner to "provide a waiver from the requirement that at least one off-duty law-enforcement officer or trained security personnel be present at all times in the emergency department if the hospital demonstrates that a different level of security is necessary and appropriate for any of its emergency departments based upon findings in the security risk assessment."

The second enactment clause of Chapter 417 exempts the regulatory action from the Administrative Process Act (§ 2.2-4000 *et seq.* of the Code of Virginia), provided that the State Board of **Health** gives an opportunity for public comment prior to adoption. This notice serves as public comment opportunity.

In drafting the proposed regulatory text, the Virginia Department of **Health** (VDH) sought to address (i) development of security plans using standards other than those established by the International Association for Healthcare Security and Safety; (ii) the minimum information needed to evaluate requests for waivers of the requirement of "one off-duty law-enforcement officer or trained security personnel who is present in the emergency department at all times"; (iii) updates to security plans and duration of waivers; and (iv) protection of sensitive security and operational information about hospitals that VDH has in its possession as part of the waiver process.

VDH also took into consideration that currently all general hospitals in Virginia are certified by the Centers of Medicare

and Medicaid Services (CMS) as hospitals or critical access hospitals and that some may seek CMS certification as rural emergency hospitals. CMS requires all of these providers to develop and maintain emergency preparedness plans that include facility-based and community-based risk assessments, which are required to be updated at least every two years (42 CFR §§ 482.15(a), 485.542(a), and 485.625(a)). To reduce the administrative burden on hospitals while ensuring that security plans required by Chapter 417 are kept current, VDH proposes to have security plans be updated at the same interval as the emergency preparedness since both plans have similar components.

Public comment period: April 10, 2023, to May 10, 2023.
